

Schur® Star Pure Paper Bag

PATENT PENDING

The Schur® Star Pure Paper Bag forms prominent part of our range of sustainable packaging solutions for the Schur® Star Concept

- The Schur® Star Pure Paper bag is the first pure paper bag on the market
- It is the obvious packaging solution for e.g. organic products and will give your product an attractive appearance on the supermarket shelves, effectively conveying a sustainable profile
- The Schur® Star Pure Paper Bag is produced of pure, non-coated paper material – based on a raw material structure specially developed for the Schur® Star Concept
- The raw material has a strong fiber structure, resulting in high puncture resistance as well as high tear resistance
- Sealing medium is only applied in the sealing areas with as little as 2 g / m²
- Like classic Schur® Star Concept Bags, the paper version is supplied on a unique string, ensuring uniform machine infeed, and a stable and consistent packing process with reduced downtime
- Also applicable for Schur® System Machines

Reasons why

- Wood fiber is a renewable resource
- Pure, non-coated paper
- Environmentally friendly material, recyclable in pure paper streams
- Attractive design options with up to 10 color flexoprint
- Attractive pack and pouch constructions
- The Schur® Star Concept is a fast, reliable, and efficient method of packaging
- The large fill opening of the Schur® Star Packaging Machine makes the Schur® Star Pure Paper Bag suitable for unhandy product formats
