Schur®Star Box Bag

The Schur®Star Box Bag construction is suitable for practically any product

- Its box-shaped bottom makes the bag stand securely on the shelf, irrespective of weight and contents
- Being printable on front, reverse, sides and bottom, the bag offers excellent opportunities to enhance the product profile, no matter whether displayed in upright or lying position on the supermarket shelf
- Superior flexographic printing in up to 10 colors, including effects like e.g. high-gloss lacquer, matte lacquer, a combination of both, or metallized inks give additional differentiation options
- Additional features are available - a window in the bag gives the consumer a glimpse of the contents, a zipper offers convenient reclosability and a tearstrip plus laserscoring give ease of opening
- The bag is available in a wide range of materials allowing specific barrier properties to ensure the bag is perfect for offering optimal storage of the product
- The Schur®Star Box Bag is a cost-efficient solution as it offers maximum filling capacity at a minimum of material consumption

Schur®Star Box Bag

- A characteristic advantage of the Schur®Star Packaging Machine is the large fill opening which makes it especially perfect for those product types that can be difficult to handle
- The length of the filling line makes it possible to work with multiple fill stations, resulting in increased production capacity, despite the product being delicate or difficult to handle
- After filling, the bags with the product can be additionally processed, e.g. by pasteurization or other treatment
- Additionally, a thermal transfer printer can be integrated to add a sell-by date, product identification data or other important information

Why Schur®Star?

The Schur®Star Concept consists of the Schur®Star Packaging machine and the pre-made Schur®Star bags

- It is all about adding flexibility and removing complexity from our customer's production
- The most flexible solution available
- Run multiple bag formats without additional tooling costs
- Quick change-over to run multiple products on one line
- No set-up times
- For manual, semi and fully automatic filling
- Wide range of innovative shapes and functionalities
- Easy to integrate into your existing process
