Nature's Kitchen: Ready to serve with Schur[®]Star Zip-Pop

Packaging with added value for gentle preparation in the microwave

Danish Kildespring has launched a new potato range in microwavable bags under the headline "Tasty choices for busy weekdays". The potatoes are packed in the innovative Schur[®]Star Zip-Pop Bag, enabling busy consumers to prepare a delicious meal in 8 minutes. Potatoes and spiced butter are placed in two separate compartments. During preparation, the steam from the potatoes opens the compartments, and the butter in the top melts down over the potatoes. When potatoes are prepared traditionally, valuable minerals and vitamins are lost with the boiling water, but this gentle method retains the nutrients in the bag.

This is how it works

**Dual
Compartment
Bag**

A: Spice
B: Product

**Steam release
system**

Nature's Kitchen: Ready to serve with Schur[®]Star Zip-Pop

The shortest possible distance between field and stove

Kildespring is a team of enthusiastic people whose focus is to offer Danish consumers honest products. And the Nature's Kitchen products perfectly fit into this. Each product is produced with the shortest possible distance between field and stove – without added preservative, e-numbers, or any other irrelevant elements. *"It is our mission to offer quality conscious consumers homemade meals with an understandable ingredient list. Also on busy weekdays with no time to do the cooking themselves"*. says Peer Slynge, Managing Director.

Kildespring will be packing a wide range of ready meals and convenience food on their Schur[®]Star, and they will take full advantage of the versatile packaging machine and the short change-over times.

When introduced to the market, the Schur[®]Star Zip-Pop bag was awarded for its innovative construction. The microwavable Schur[®]Star Zip-Pop Bag is available to consumers in USA, Australia, Lithuania, and Spain, with additional projects in the pipeline.

Why Schur[®]Star?

Bagging technology made simple

- The full-scale solution
- High filling capacity
- Gas flus
- Multiple filling positions
- Multiple index filling
- Variable footprint

Why the Schur[®]Star Concept?

The Schur[®]Star Concept consists of a Schur[®]Star Packaging Machine and the premade Schur[®]Star Bags

- The most flexible solution available
- It is all about adding flexibility to and removing complexity from our customer's production
- Run multiple bag formats without additional tooling costs
- Quick change-over to run multiple products on one line
- For manual, semi, and fully automatic filling
- Easy to integrate into your existing process
- No set-up times
